A Resource to Plan Sponsors

The advent of Medicare's Part D program providing prescription drug coverage to retired seniors presents a unique opportunity for many plan sponsors to receive significant cash payments from the federal government. In general, the money is available to any Plan Sponsor that provides prescription drug coverage to retirees if the drug coverage is at least as generous as the drug coverage provided under Medicare Part D. These subsidy payments have no restrictions on their use and they are renewable every year. The payments are tax-free, and can be received as often as monthly.

However, the process of qualifying for RDS subsidy payments is a series of complex and time-consuming tasks requiring actuarial, data management and regulatory expertise. Part D Advisors (PDA) is ready to assist plan sponsors by handling the entire process from beginning to end (or just specific portions in some instances). If you would like to further explore the [Part D Opportunity](#) then please visit us online at www.PartDAdvisors.com or give us a call at (734)459-8940.
