

# RDS Reopenings with PDA

The Centers for Medicare and Medicaid Services (CMS) allows plan sponsors to reopen previously reconciled applications for up to four years after the original reconciliation date. PDA is the established expert in this process with a one-of-a-kind methodology and custom built software that helps plan sponsors improve their total subsidy recovery by an average of 8%-15%. The process is a complete “re-do” of the plan sponsor’s original reconciliation, completed start to finish by Part D Advisors with very little effort on the part of the plan sponsor or their vendors.

## Reopening Success ≠ Mistakes

PDA’s identification and collection of additional subsidy for plan sponsors does not mean other vendors made mistakes the first time the application was reconciled. The PDA solution is simply different from what your customers have had in the past. During the course of Final Reconciliation, most plan sponsors rely on separate vendors for each step in the RDS application process, which lacks central coordination and oversight. Part D Advisors brings all aspects of the RDS reopening process under one roof, saving time and improving outcomes for your customers.

## Custom Software

Part D Advisors has heavily invested in the development and maintenance of a suite of 25+ RDS specific tools, built to maximize customer subsidy and ensure compliance. The goal of our custom-built software is to:

### ELIGIBILITY IMPROVEMENTS

*Collection of all available data sources to identify potentially eligible, previously overlooked and/or rejected members.*

### CLAIMS MATCHING

*All drug claims are reviewed to ensure any that are eligible are tied to an eligible member and included for subsidy.*

### DRUG FILTER

*RDS-specific, rigorously maintained drug filter ensures that all eligible drug claims are included in subsidy calculations.*

### DATA SECURITY

*PDA is the only firm SOC certified for RDS administration with multiple layers of physical and virtual safeguards to protect customer data.*

## No Risk Pricing

PDA’s reopening services are priced as percentages of additional subsidy collected. Your customers would not be invoiced until after they have received additional dollars from CMS. There are no charges whatsoever until and unless additional money is collected.
